Core Java concepts: classes, objects, inheritance, and polymorphism, Writing programs using arrays, loops, and conditionals, File I/O operations and exception handling, Built small projects like a basic Employee Management System, a Calculator, and simple console games

EDUCATION

Sanjay Ghodawat University, Kolhapur- B-tech

Bachelor Of Technology - 7.8910

June 2022 - June 2026

Deccan Education Society Pune

Secondary School Certificate - 75

July 2013 - July 2020

PROJECTS

Zomato

Jan 10/2025 - Jan 20/2025

Zomato is a simple food delivery web app inspired by Zomato's core idea helping users discover restaurants, browse menus, and place orders online. The site features a clean home page, restaurant listings, basic search functionality, and an easy-to-navigate layout. It's built mainly for practice and demonstration, showing how a real-world food delivery platform works under the hood.

Key parts:

- **Restaurant Catalog:** View available restaurants with images and basic info
- **Menu Pages:** See dishes, prices, and simple add-to-cart flow
- **Frontend:** Likely built with HTML, CSS, and JavaScript (or React if you used it)
- **Deployed:** Hosted on Netlify for quick sharing and testing

SKILLS

- Technical Skills: Java, HTML, CSS, JavaScript, Python, MongoDB.
- Soft Skills: Problem-solving, Time management, Quick learner, Strong communication

CERTIFICATE

SQL and Relational Databases 101

IBM SQL and Relational Databases 101 Certificate

Successfully completed the *SQL and Relational Databases 101* course offered by Cognitive Class, powered by the IBM Developer Skills Network. The certificate verifies practical knowledge of creating, querying, and managing relational databases using SQL.

Issued: June 20, 2025

AWARD

Java Certified Foundations Associate: Java Concepts & Features Skillsoft
